Introducing
ControlRxInternational

Effective June 1st, 2020, Hodge made available on a **voluntary** basis to eligible members and dependents a new, cost saving, **international mail order drug program** for *brand name prescriptions* administered by CanaRx. **ControlRxInternational** is a voluntary program and does not replace your current prescription benefit plan.

Advantages of joining the ControlRxInternational program administered by CanaRx are:

- **\$0 COPAY** for all prescriptions offered through the program
- Prescriptions shipped directly to your home with no shipping and handling costs
- No out-of-pocket expenses
- See attached list of brand name prescription medications available

How does it work?

- Review enclosed formulary list of brand name prescriptions to determine if any of your current medications are available through this program
- Before ordering through CanaRx, you or your doctor must attest that you have been taking your prescribed medication for at least 30 days - this is to ensure you have not experienced any complications with the medication
- Ask your doctor for a prescription for a **3-month supply with 3 refills**
- Request your doctor to fax your enrollment form and prescription directly to **ControlRxInternational**

-OR-

Mail your original prescription and completed enrollment form to **ControlRxInternational**

- Include a copy of your photo identification for pharmacy verification
- CanaRx will call you prior to each refill to ensure that you have a continuous supply of medications
- Allow 4 weeks for delivery when ordering new medications
